ZBA

As you can see from other RTM members' sending in emails, this is an issue that is resonating with the community. I have been approached by numerous members of my district asking me weigh in.

You, as the ZBA, are supposed to be dealing with hardships, those that exist on the ground, or exist with zoning, not created. The applicant's hardship is of their own doing. They created this mess and the Town and our boards don't need to clean it up. It's time to have them start from scratch and work out problem, not receive a pass from the ZBA.

Thanks

Matthew Mandell
